PCMA's Second Annual PBMs & Generic Manufacturers – Trends, Tools and Alignment Symposium June 2007 | New York, NY

Never before had senior executives from PBMs and generic manufacturers assembled to network and listen to presentations on both current and future challenges and opportunities facing PBMs and generic manufacturers. The feedback from attendees was overwhelmingly positive. In 2007 we will work with leaders from PBMs and manufacturers to devise a symposium agenda that is current and actionable.

The date for this event will be posted to the PCMA website in October 2006. A symposium agenda will be posted in the beginning of 2007.
